

# CROSSWINDS

*The Official Newsletter of the Fallbrook Community Airpark*

**HERE COME THE 99s** The Coyote Country Chapter of the 99s will hold their 15th annual Caper & Poker Run on Saturday, October 7th. The airports included are Fallbrook, Ramona, Gillespie Field, Hemet, French Valley and Oceanside. At 2 p.m. that day, a special Stearman Fly-in will take place and will feature the Oshkosh 1st Place Best Antique Restoration winner. **LET'S**

**REMEMBER TO BE GOOD NEIGHBORS** Please remember, when you depart the Airpark or use the pattern, be considerate of our neighbors. The noise complaints are few and far between and Fallbrook, as a community, is very airport friendly, but we do get them. Usually it's a visiting pilot who ignores the advisory to make their crosswind after the water tower. But we are growing and there are several new airport users. So take this as a reminder to fly safe and be considerate of those below you. **A FUN FOURTH OF JULY**

The Airpark was the place to be this past 4th of July as the Grand Traditions put on another spectacular fireworks display and scores of people made the Airpark their vantage point to a great show for the whole family. **AIRPORT PLANS** Construction should start soon on a new Terminal and Transient Ramp just West of the numbers off of runway 18. The Airport's staff office, maybe even room for a small sandwich shop, a new viewing area and vehicle parking lot, along with tie-down parking for some 50 aircraft are all planned for this area. The "Mapping" of the airport has already been done and next we will begin the design phase, followed by the movement of dirt. This will create an actual "air side" and "land side" to the Airpark for the first time and give us an opportunity to offer better access to transient pilots

Sheriff's Copter 12's spiffy new crew quarters are all ready to go, with move in soon.

Soon this lot, just past the runway, will be the Airpark's new Terminal and Transient Ramp.

and even one of those Fly-In Breakfasts we hear about at other airports. It will be a nice plus to the Airpark. **MAKE SURE YOU ARE EXTRA CAREFUL WITH ANY FUEL, SOLVENT OR OIL SPILLS**

Water quality types keep close eyes on airports to make sure

Our Airpark offers the best view of 4th of July Fireworks in the County every year.

we're not sending pollutants into the nation's streams, rivers and lakes. Simple things like emptying your fuel testers back into your tanks, rather than throwing the excess out onto the ramp can help keep us compliant and away from some super stiff fines. Keeping a drip pan under aircraft that park outside, no matter how clean, is also a good idea. And knowing where the nearest spill kit is...is a must.
